

WHY CHOOSE US?

Solving Your **Top 5 Business Safety Issues**

SAFETY  SUITE

Embedded Safety Culture

Maintaining engagement and a positive safety culture is an ongoing process that must be driven by management.

Why does it Matter?

Shared safety beliefs, values and attitudes can be characterised as “the way we do things around here”.

A positive safety culture is cascaded from the top down and results in improved workplace health and safety and organisational performance.

How we support you

- Risk & Hazard Management
- Proactive Safety Initiatives
- Incident & Event Management
- Action Management
- Stakeholder Engagement

Results

Improvements in:

- Staff Retention & Morale
- Worker Engagement
- Perception of Management
- Productivity
- Industry Reputation
- Regulatory Compliance

A large Australian manufacturer had over 1,000 dormant safety actions, left unattended in spreadsheets. SafetySuite lifted their responsiveness to 100%.

Minimise Injury Claims

Ensuring workers get home safe every day has massive benefits ethically, socially and financially.

Why it matters

Your obligations to achieve a zero harm workforce are now backed up with enforceable legislation. Failures here can have financial penalties, PR impacts and incarceration for Directors.

How we support you

- Injury Management
- Workers Compensation
- Rehabilitation & RTW
- Risk & Hazard Management
- Proactive Safety Initiatives
- Incident & Event Management

Results

Reductions in:

- Insurance Premiums
- Temporary Staff Costs
- Absenteeism rates
- Overtime Costs

“Our risk rating with the regulators has now been regraded from High to Low, something that we have never been able to achieve before.”
– Australian Self Insurer after rollout of SafetySuite.

Employee Engagement

By ensuring employees actively participate in safety processes it becomes part of everything they do.

Why it matters

An employee that feels supported and safe at work remains loyal and productive.

By providing the tools they need to make safety a part of their daily engagement their participation rates skyrocket.

How we support you

- Risk & Hazard Management
- Proactive Safety Initiatives
- Mobility

Results

Improvements in:

- Employee Morale
- Absence rates
- Hazard Identification
- Retention Rates

A large Australian employer had provided no access to safety reporting processes to 95% of their at-risk staff. With SafetySuite, 100% engagement was achieved.

Hazard Recognition

Recognising and reporting all hazards ensures the business can react effectively and build a programmatic approach to risk.

Why it matters

Unidentified hazards are not subject to the rigour of risk management processes and therefore have no preventative measures and controls implemented.

They are not communicated to the workforce and are a common cause of injury.

How we support you

- Risk & Hazard Management
- Proactive Safety Initiatives
- Mobility
- Action Management

Results

Improvements in:

- Hazard Control
- Safety Awareness
- Regulatory Compliance
- Incident Statistics

A large Australian employer went from recording approximately 280 hazards a month to over 40,000 in under a year after implementing SafetySuite.

Efficient Incident Response

When things do go wrong, build trust with your workforce by reacting effectively and building your learnings back into the business.

Why it matters

Mistakes happen, but when it happens again that is inexcusable in the eyes of your workforce and the regulator. Morale is impacted and trust in Management dives.

Ensure you care for impacted workers and the environment quickly and effectively and learn from your mistakes.

How we support you

- Incident & Event Management
- Action Management
- Stakeholder Management
- Mobility

Results

- Reduced fines & penalties
- Regulatory Compliance
- Culture change from lessons learned
- Improved Incident Statistics

A State Government department improved their Investigation compliance rates by 78% by having SafetySuite monitor and escalate their performance to policy.

The SafetySuite Solution

SAFETY<>SUITE

The SafetySuite Solution

Evolving Your Workplace Safety Culture

Simplicity in your hand.

SafetySuite's modern, intuitive look and feel is consistent with SAP UI and other SAP business processes. This ensures your users can get up to speed quickly.

Compliance to legislation.

SafetySuite provides the flexibility to extend your safety management system and processes to all those engaged in your operations (employees and contractors) without paying a license for every user.

A pre-configured baseline system.

Your SafetySuite implementation is initialised with a complete pre-configuration based on 25+ years of business experience.

With advanced configuration.

Without needing to be technical, a member of your Safety team can quickly configure new classifications, workflows & escalations or data entry screens.

Closed loop workplace safety

SafetySuite helps you understand your workplace risks and hazards, and plan your controls to mitigate them. It supports creating a programmatic approach to audits, inspections and toolbox talks to ensure engagement in your safety culture.

Smooth injury management.

Easily manage all aspects of workers' compensation claims and injury management cases with processes to ensure the employees journey back to health is as comfortable as possible.

Drag and drop analytics dashboard.

Our dashboards provide you with the key statistical reports that are commonly required at a glance.

Formal sign-off & compliance.

With SafetySuite you will have full control over the level of process compliance and formal sign off. I.e. A high severity event may need two levels of sign-off.
